

FOREIGN NEWS.

The steamer Scotia, at New York, brings European advices to the 21st.

The London Spectator contains a report that Earl Russell leaves the British Cabinet, to be succeeded by Earl Clarendon.

A thousand troops sailed from Cherbourg on the 23d for Mexico.

The Glasgow Herald states that the naval authorities in Clyde have been instructed to detain all suspected war vessels for the Confederates.

It is denied that Russia has replied that she would join the Congress but not until after the pacification of Poland.

The London Times details vigorous warlike preparations making by Russia. The channels of Cronstadt are being blockaded and intercepted by infernal machines. A submarine vessel of colossal proportions is building, also extensive earthworks; and there are enormous exertions in the manufacture of guns, armor plates, &c. A two years' supply of coal is provided for the fleet. One hundred and sixty thousand men are said to occupy the country from the Crimea to Galicia, under General Luders.

The number of invalid pensions granted by the U. S. Pension Office during the month of November, just closed, was 2,095. The number of pensions to widows, mothers, and orphans allowed during the same month was 2,002, and the total number for November 4,097. The number of invalid cases admitted exceeds the number of new cases filed for the month by 1,062.

An arrival from off Charleston on Tuesday, brings contradictory reports of the bombardment of Sumter. One account says that the Federal batteries continue to shell the fort, while another states that the firing on it had ceased, Gen. Gilmore directing his guns against the inside of the harbor, but mainly upon Fort Johnson, which it is said, must be reduced before further progress in the siege can be made. Shells were being thrown into the city at the rate of about twenty per day. Deserters report that the non-combatants had all been removed from the city.

The most significant event of recent occurrence in Europe is the publication, by the official newspaper, of the Emperor of Russia, of the letter of the Emperor Alexander recalling his brother, the Grand Duke Constantine, from the Lieutenancy of Poland. Given to the world immediately after the publication of Louis Napoleon's address to the sovereigns inviting them to a Congress upon European affairs, this remarkable document is justly considered in the light of a counter-manifesto; and coupled with the Czar's reply to Napoleon's invitation stating that Russia declines to take part in the Congress till Poland is first pacified, is believed to embody the policy he has determined to pursue.

Serious disturbances have occurred this week in South Amboy, N. J. on the part of the strikers from the employ of the Camden and Amboy railroad. The Government and other freight was detained, railroad and other business stopped, and, for two days, mob law reigned supreme. On Wednesday, the sheriff, with a posse of thirty men, and a militia company from Trenton, dispersed the mob, and arrested many of them, and the operations of the road were resumed.

The reward for the re-capture of Gen. Morgan, by the authorities in Ohio has been increased to \$5,000.

PROF. LOUIS WUNDRAM'S CELEBRATED HERB MEDICINES.

NOW for the first time introduced into this country, have been successfully used for twenty-six years in Germany, and the rest of Europe, and are particularly efficient in the cure of all chronic diseases.
